CORRIGENDUM

YOONKYUNG LEE

Department of Statistics, The Ohio State University, Columbus, Ohio

GRACE WAHBA

Department of Statistics, University of Wisconsin—Madison, Madison, Wisconsin

STEVEN A. ACKERMAN

Department of Atmospheric and Oceanic Sciences, University of Wisconsin—Madison, Madison, Wisconsin

Corrections are needed for several typographical errors that appeared in Lee et al. (2004).

1) In section 2 four lines from the bottom of the left column of p. 160, the text should read, "Given a training set $\{y_i, \mathbf{x}_i\}_{i=1}^n, \ldots$"
2) Also in section 2, five lines from the bottom of the right column on p. 160 the text should read, "$\ldots$that setting $C(\tau) = \log(1 + e^{-\tau})$ in (2) gives $\ldots$"
3) Throughout section 3 on p. 161, and in section 4d in the right column of p. 166, the term $-(1/k - 1)$ should have appeared as $-1/(k - 1)$.
4) In section 3 nine lines from the bottom of the right column of p. 162, the term $-[1/(R - 1)]$ should have appeared as $-[1/(k - 1)]$.

The staff of the *Journal of Atmospheric and Oceanic Technology* regrets any inconvenience these errors may have caused.
